Crops/situations	Maximum individual dose: (g product/17 m ²)	Maximum number of treatments	Minimum interval between application
All edible crops, all non edible crops, areas not intended to bear vegetation ornamental garden plants.	50	2/year	14 days

USE PESTICIDES SAFELY. READ THE LABEL.

INSTRUCTIONS FOR USE

Curb Garden Powder reduces damage in the garden caused by birds, rabbits and hares. Limited evidence indicates defects on deer, rodents (including squirrels) and deterring fouling by dogs, cats and foxes. It works by confusing the animal/birds sense of taste and smell. For optimum effectiveness application should be made as soon as the problem is observed. The product is not rainfast and reapplication may be necessary for extended activity.

WHERE TO USE.

DO NOT APPLY TO LAWNS

Curb Garden Powder can be used to discourage/deter domestic animals and birds on all edible crops, non-edible crops, ornamental borders, patios, paths and driveways. Apply CURB GARDEN POWDER either before or immediately after the first signs of damage under dry conditions and ensure that the spray deposit dries on the crop/plants/area to be protected. It is not systemic and fresh application may be necessary on plant re-growth. If rain occurs before the deposit dries reapplication will be necessary.

Do not leave in the sprayer without agitation.

Do not apply in mixture with any other products.

HOW TO USE.

For general use 50g of CURB GARDEN POWDER is sufficient product to make 9.0 litres of spray solution. Empty the sachet into a clean container and add sufficient lukewarm water to ensure that the powder is completely dissolved. Make up the solution to 9.0 litres with cold water and apply immediately. Stir thoroughly before use. The solution can be applied either with a watering can fitted with a fine rose or through suitable spraying equipment. This quantity of solution will be sufficient to treat 17m².

SAFETY INSTRUCTIONS

Protection during use

- Keep out of reach of children.
- WASH HANDS AFTER USE
- If medical advice is needed, have product container or label at hand.

Storage and disposal

- KEEP AWAY FROM CHILDREN AND PETS.
- KEEP AWAY FROM FOOD AND DRINK
